

**Science of Reading Student Teacher Placement
2nd Request for Proposals (RFP)
Release Date: February 14, 2024
Submission Date: March 29, 2024**

I. Program Purpose

Literacy forms the foundation of learning, and in Ohio more than half of all entering kindergarteners are not meeting the benchmarks in language and literacy, and at least 40% of all 3rd grade students are unable to demonstrate proficiency in reading. Ohio is committed to increasing the number of students that are proficient readers and is supporting multiple efforts including ensuring teachers are prepared to meet the needs of all learners through their teacher preparation programs.

To ensure that Ohio's teacher preparation programs are preparing their candidates to support every learner in their reading development, the Ohio Department of Higher Education ("ODHE") welcomes proposals from educator preparation programs seeking assistance to place student teachers with cooperating teachers who:

- (a) Received instruction in evidenced-based strategies aligned to the science of reading;
- (b) Use high quality instructional materials aligned to the science of reading; and
- (c) Implement a structured literacy approach in their classrooms.

II. Eligible Applicants

Proposals may be submitted by Ohio's four-year public and private colleges and universities that have Chancellor approved educator preparation programs. Eligible applicants may choose to partner with public community colleges, if desired, if doing so will strengthen and enhance their proposal.

III. Anticipated Awards

After the first round of awards there remains \$411,500 to be awarded over both fiscal years 2024 and 2025 to support student placement with qualified cooperating teachers. Individual institutions of higher education may apply for up to \$10,000 for each year to support the placement of their student teachers with qualified cooperating teachers who:

- (a) Received instruction in evidenced-based strategies aligned to the science of reading;
- (b) Use high quality instructional materials aligned to the science of reading; and
- (c) Implement a structured literacy approach in their classrooms.

Selected institutions must enter into an award agreement with ODHE in order to receive the funds.

IV. Eligible Expenses

Each proposal must include a proposed budget (see Proposal requirements below). Funds awarded under the program are to be expended on eligible costs only, no indirect costs are allowed. All reasonable expenses will be considered including:

- Stipend to district or school building to support placement of student teacher with qualified cooperating teachers.
- Materials for cooperating teachers' classrooms.
- Administrative costs to verify cooperating teachers' qualifications.

V. Project Term:

The work covered by the award will begin upon execution of the Award Agreement and continue until June 30, 2025.
