

Fiscal Year 2027 Campus Student Safety Grant Program

Questions received by 7/10/2026

1. Are indirect costs still limited to 5% for Fiscal Year 27?

Yes. The budget form has been updated to reflect this position.

2. Will the grant fund a response vehicle, such as a side-by-side ATV?

While a response vehicle is an eligible expense, requests such as security cameras, lighting, door access technology, etc., will be prioritized before a request for response vehicles. A request for a response vehicle will only be granted if the proposal justifies the need for such a vehicle and other priorities have been met or are part of the requested funding.
